

We are faithfully listeners to K-Love on 91.5. It is so refreshing to have a station that everyone in the family can listen to. It is not offensive and makes my commute to and from work relaxing and uplifting. There are plenty of rock, alternative, country and talk shows on the air. The message on K-Love is to be loving and a productive and responsible citizen. With so much violence in our world, it is a refuge from it and if more listened and followed the message of love your neighbor and treat others like you would like to be treated maybe we would not be witnessing such terror as we see now.
